GAME DEVELOPER

Number of Positions: 1

Contract Type: Indefinite

Our Game Developer is responsible for designing, developing, and implementing interactive online games, often for platforms such as casino games, slots, sports betting, and other gambling-focused applications.

Job description

This role involves coding gameplay mechanics, integrating visual and sound assets, and optimizing game performance for a seamless player experience. The Game Developer will collaborate with our designers, artists, and server developers to bring game concepts to life, ensuring that each game meets technical, aesthetic, and regulatory standards.

Requirements
- Experience: Minimum of 3 years
- Bachelor's degree
- iGaming experience

Training provided
Mainly on the job training or additional training as identified when the candidate starts

Any assistance with accommodation/relocation
2 weeks paid accommodation + flight arrangements. We will also support with relocation (questions, connections etc).

Salary
€ 50,000 - € 60,000 (depends on experience)

How will the interviews be held
Screen call by HR
Interview with Senior within the team
Interview with Dept Head
