Website	<a href="http://www.scangranitt.no">www.scangranitt.no</a>

## **Description of Company**

Scan Granitt is one of Norway's leading producers of kitchen countertops from stone and composite material, located in Sandefjord. 40 employees work in a growing company with high focus on quality, details and precision. We have a modern production facility with highly automated machines and an efficient production.

Number of employees: 40

Job title	Production Worker
Job description	Production of countertops in natural stone, quartz composite and sintered stone for private homes and on larger projects across Norway. The work requires millimeter precision and a high degree of attention to details. You will work in our factory in Sandefjord.
Skills: Education, work experience, language, certificate etc.	Relevant experience is either operation of machines (CNC, blade, edge polishing machine), polishing/manual finish, warehouse management or quality control from stonemasons or countertop production factories. Only persons with such experience will be considered for the position.  You need to speak English and it is further an advantage if you also speak Norwegian although that is not a requirement.
Working hours and place of work	We are looking for a person who can work 7.5 hours per day, five days per week on morning and evening shifts (06.00 to 22.00).
Start date (and, if necessary, End date)	Permanent job. Start date to be agreed.
Salary	Salary starts at 20 euro plus additional pay for overtime and evening work.
Other information	We are located just 5 minutes from Torp airport, with easy access to several European cities. We have rooms in apartment located close to our premises.

## **Application**

Last day for application	30.06.2025
How to apply?	Please send your CV by e-mail: <a href="mailto:lars@scangranitt.no">lars@scangranitt.no</a>
