

Vacancy Buyer Equipment & Medical Devices

40 hours

Drive Impact. Source Innovation. Improve Global Health.

Are you a commercially driven procurement professional with a passion for healthcare? Do you bring expertise in purchasing medical equipment and devices and wish to make a difference on a global scale?

Your Role: Strategic Buyer with a Global Reach

As a Buyer within our dynamic purchasing team, you'll take full ownership of a product portfolio aligned with your expertise—medical equipment, devices and consumables.

You will work closely with colleagues across departments to deliver real-world impact through smart sourcing and effective supplier partnerships.

Your key responsibilities include

- Sourcing internationally to secure quality products on the best commercial terms
- Managing and negotiating strategic supplier relationships and contracts
- Building and optimizing a high-performing, future-proof product portfolio
- Conducting benchmarking and continuous market evaluations
- Keeping product dossiers and documentation fully up to date
- Advising internal teams on category trends and market intelligence
- Monitoring and improving supplier performance
- Collaborating cross-functionally with sales, supply chain, and quality assurance

What You Bring to the Team

- A relevant university degree or HBO-level qualification
- At least 5 years of procurement experience in an international setting
- Strong commercial acumen and negotiation skills
- Preferably: in-depth product knowledge of equipment
- A proactive and self-driven attitude; capable of working independently and in teams
- Open-minded, collaborative mindset; comfortable mentoring junior colleagues

What We Offer

- A high-impact, independent role in a mission-driven organization
- Competitive salary: €4.000 – €5.000 gross/month
- 27 vacation days, pension scheme, and learning & development opportunities
- Hybrid working model and potential for future relocation to Utrecht region
- The opportunity to directly contribute to strengthening healthcare systems in low- and middle-income countries

About The Medical Export Group (MEG)

Since 1980, MEG has been a trusted partner to international NGOs and governments, supporting healthcare delivery in developing countries. Our clients include UNICEF, WHO, and other major humanitarian players. We provide medical supplies and expertise for both long-term health programs and rapid emergency response.
